

DAY 33

THE SOURCE OF LIGHT

**“All things were made through him,
and without him was not any thing made
that was made. In him was life,
and the life was the light of men.
The light shines in the darkness,
and the darkness has not overcome it.”**

John 1:3-5

In the beginning, the triune God created all things. Darkness prevailed but the Son who has a partner with Father in the creation of our world was there to provide life and with life came light — not just the light for our physical world but light in the redeemed hearts of men. Jesus our Savior existed before the beginning of time, but His real impact upon our world came after the creation, when He came to walk among us. He is the light of the world. The life that he provides to mankind provides light in the hearts and lives of those who are willing to receive that life. The darkness of our world tried to snuff out the light He provided. However, there is no darkness so dark that it does not yield to the least amount of light. The darkness can not quench the light that our Savior provides in the hearts of men. Day by day we need to remember that the life we have comes through our relationship with Jesus Christ. Day by day we need to share that life and light with the rest of the world. Everywhere we go, we should radiate the light that is provided for men through the life that comes from a relationship with Jesus Christ.

1. Does my life radiate and communicate the light of Christ to the people with whom I come in contact every day?

2. Am I tempted to let the darkness of our troubled world minimize the light that I radiate for Christ?

Father thank you for the eternal nature of Jesus your son. Thank you for the life that He provides in my life and the opportunity I have to share that light with the world around me. Lord do not allow me to forget the source of my life and light in your Son Jesus. Daily remind me through the presence of your Holy Spirit that all I have comes from Him. Empower me to let my light shine to dispel the darkness in our world. Amen.
